

## Be Winter Salt Smart!

Using salt helps keep our pathways and roadways safer during winter weather, but overuse can negatively impact waterways. Use winter salt responsibly with these tips:

- Use one 12 oz mug to treat every 20 feet of driveway.
- Sweep up excess salt and use it again later.
- If the pavement is below 1 degree F, salt will not work. Use sand instead.

## In 2024, AlexRenew...

- Treated approximately **13 million gallons** of wastewater
- Prevented **2,400 tons** of nitrogen and **300 tons** of phosphorus from entering waterways
- Reused over **100 billion gallons** of reclaimed water at our treatment plant, reducing our potable water demand by **97%**
- Offset **50%** of our natural gas needs by utilizing methane gas captured from the treatment process

We look forward to continuing to serve our community in 2025!
