

## RiverRenew May 2025 Update

AlexRenew achieved several major milestones on its state-mandated RiverRenew project in 2024, including the completion of the 2.2-mile Waterfront Tunnel and Hooffs Run Interceptor. As crews continue to make progress on the largest infrastructure project in Alexandria's history, work is now largely focused on the construction of the pumping stations, located at the heart of AlexRenew's treatment plant.

When RiverRenew is completed in 2026, these new structures will capture and convey millions of gallons of combined sewage that would otherwise pollute the Potomac River — creating safer, healthier waterways for the community, wildlife, and future generations.

## **Public Hearing Proposed Budget & Rates**

AlexRenew's proposed Fiscal Year 2026 Annual Budget and resolution to adopt a two-year rate adjustment has been posted for public notice. AlexRenew will host a public hearing at 9:30 am on Saturday, May 17, 2025, at 1800 Limerick Street, 6th Floor, Alexandria, VA.

The proposed budget ensures sufficient resources for AlexRenew's daily operations as well as ongoing investments for AlexRenew's infrastructure. AlexRenew is proposing a two-year rate adjustment of 5.0% beginning July 1, 2025, and 5.7% beginning July 1, 2026.

Visit alexrenew.com/rates for more information.
